ALLEN JOSHUA O. BELANO

0950-175-3538 | belanoallen@gmail.com | linkedin.com/in/allen-belano | Angono, Rizal, Philippines

PROFESSIONAL SUMMARY

Full-stack developer experienced in building, testing, and supporting enterprise systems used by 4,000-5,000 employees and handling 500+ tickets daily. Combines frontend development, backend integration, QA, and UI/UX design while completing a BS in Information Technology.

WORK HISTORY

June 2026 - Present

DevKada (Non-Profit Community Organization)

Full Stack Developer

- Lead frontend development and product design for DevKada's official website, from sitemap and low-fidelity wireframes through high-fidelity prototypes and implementation.
- Build the interface with React, Next.js, Tailwind CSS, and Flutter while collaborating on PostgreSQL, Firebase, and Supabase integrations for the organization's community platform.

Feb 2026 - Present

AWS Student Builder Group - Alpha

Operations & Program Committee Member

- Delivered 5 club events, including the “AI Governance” flagship at AWS's BGC office, which drew 150 attendees and featured AWS Philippines leadership.
- Organized 4 online workshops averaging 50 attendees each, extending the group's reach beyond in-person programming.
- Coordinated agendas, logistics, speakers, and member engagement across the full event program.

Feb 2026 - May 2026

Viva International Food & Restaurants, Inc. - Ortigas Center, Pasig City

Software Engineer & IT Support Intern

- Developed, tested, and maintained an employee Training System used by 4,000-5,000 employees and a Ticketing Management System processing 500+ tickets daily across Viva International brands.
- Built and enhanced the company-wide PBRF (POS Button Request Form) platform used across brands and store locations.
- Designed prototypes and improved ticketing workflows for high-volume, cross-brand operations.
- Performed system testing, debugging, and technical documentation to support reliable daily operations.
- Translated business requirements with supervisors, business analysts, and senior programmers.
- Provided on-site IT support and hardware maintenance for the head office and 4-5 Botejyu branches.

PROJECT HISTORY

VeriFi-PH (Deployed on Vercel)

React + Vite, Node.js + Express, Tailwind CSS, Chrome Extension, Socket.IO, Cloudflare Workers AI | CodeKada Hackathon 2026

- Placed Top 5 out of 105 projects and 535 participants at the CodeKada Hackathon 2026.
- Built a link-based social post verification system that checks credibility signals, surfaces fact-check context, and returns a clear verdict with supporting insights.
- Combined Cloudflare Workers AI, engagement signals, and fact-checking APIs to generate credibility scores with Philippine legal context.

SA/AN Commuter Guide

React + Vite, React Router, React Leaflet, Node.js + Express, PostgreSQL, JWT, bcrypt, Multer | Personal Project

- Developing a community-powered commuter route finder with route search, personalized recommendations, and transit alerts.
- Designing Navvia, an AI-powered commuter assistant with a conversational interface, GPS trivia, and offline guidance.
- Built a background scheduler that syncs and classifies RSS transit news feeds using priority scoring.

SKILLS

Programming: HTML, CSS, JavaScript, Python, Java, C++, PHP

Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, Bootstrap, Tailwind CSS, React Router, React Leaflet, Flutter

Databases & Backend: MySQL, PostgreSQL, MongoDB, Firebase, Supabase

AI Tools & APIs: OpenAI (ChatGPT) API, Claude, Cloudflare Workers AI, Prompt Engineering

Tools & Software: VS Code, Figma, Cisco Packet Tracer, MS Office, Google Workspace, Canva, Godot

Core Skills: System Development, System Testing & QA, Data Analysis, IT Support, UI/UX Design, REST APIs, Technical Documentation

EDUCATION

BS Information Technology 2023 - 2027

Rizal Technological University, Boni Campus | Current GWA: 1.34 (as of 3rd Year - Magna Cum Laude range)

Senior High School 2021 - 2023 | Graduated with Honors

Angono National High School, Angono, Rizal

CERTIFICATIONS & SCHOLARSHIPS

DataCamp – ChatGPT, Python (Intro/Intermediate), Data Science Scholarship

Udemy – Full-Stack Web Dev Bootcamp

Tech Academy – CCNA Prep

Palo Alto Networks – Certified Cybersecurity Practitioner (Cyber Security Fundamentals, Network Security Fundamentals, Endpoint Security, Cloud Security fundamentals, Security Operations Fundamentals)
